

CCPE — Education

From theory to practice, on real data

NXW PROJECTS • 2026

SMART TECHNOLOGY • INNOVATIVE INVESTMENT

From theory to practice, on real data

CCPE is the education and capacity-building platform of the CCPX ecosystem. It brings together the NXW Investment Library, online courses, quizzes and hands-on labs, all connected to the real data and tools of the NXW platforms.

Learners progress from foundations to expert level through six progressive certificates, with real case studies on CCPR, CCPI and CCPS, and a path to real NXW projects through the job-assistance programme.

Why it matters

CCPE also supports universities and companies with modules, guest lectures and in-house training, in English and Vietnamese.

What CCPE — Education offers

NXW Investment Library

Four books, chapter 1 free online

Courses

From beginner to advanced

Labs

Excel and R on the cloud

Quizzes

Check your progress

Certificates

Six progressive levels

Partnerships

Universities and companies
