ESG data for Vietnamese listed companies

The Vietnam ESG Portal gathers environmental, social and governance information on Vietnamese listed companies, scores them with a transparent methodology and makes the results easy to compare.

It follows company disclosure, highlights strengths and gaps by pillar and sector, and connects Vietnamese practice with international standards.

Why it matters

Investors use it to screen and tilt portfolios, companies to benchmark themselves against peers, and researchers to study ESG in an emerging market.

What Vietnam ESG Portal offers

Environment

Emissions, energy, resources

Social

People, safety, communities

Governance

Boards, transparency, rights

ESG score

Transparent methodology

Disclosure

What companies publish

Sector comparison

Peers and rankings
